*First service launched successfully with very limited marketing.*

*Of the first 1 000 users  
43% remained  
subscribed for the  
entire course.*

# FIRST RESULTS: SUCCESS!

*8,9% of all registered  
users completed the  
whole course!*

<sup>1</sup> Of the first 1022 users of the Entrepreneurship 101 course 42,9% remained subscribed to the course and 8,9% of users completed the whole course. This can be compared with the average 4-5% completion rate of MOOCs as published in research by Katy Jordan in 2014.

# Competition

## Web Solutions

Replicate classroom learning  
UX not optimized for mobile  
Use a lot of [mobile] data

**coursera**

**edX**

## Mobile Applications

Limited to one content area  
No social components  
Expensive and slow production

Our competition tries to force a web-oriented approach to mobile.

Or they offer mobile apps that can only offer limited functionality.

# How we'll grow

## Effectuation

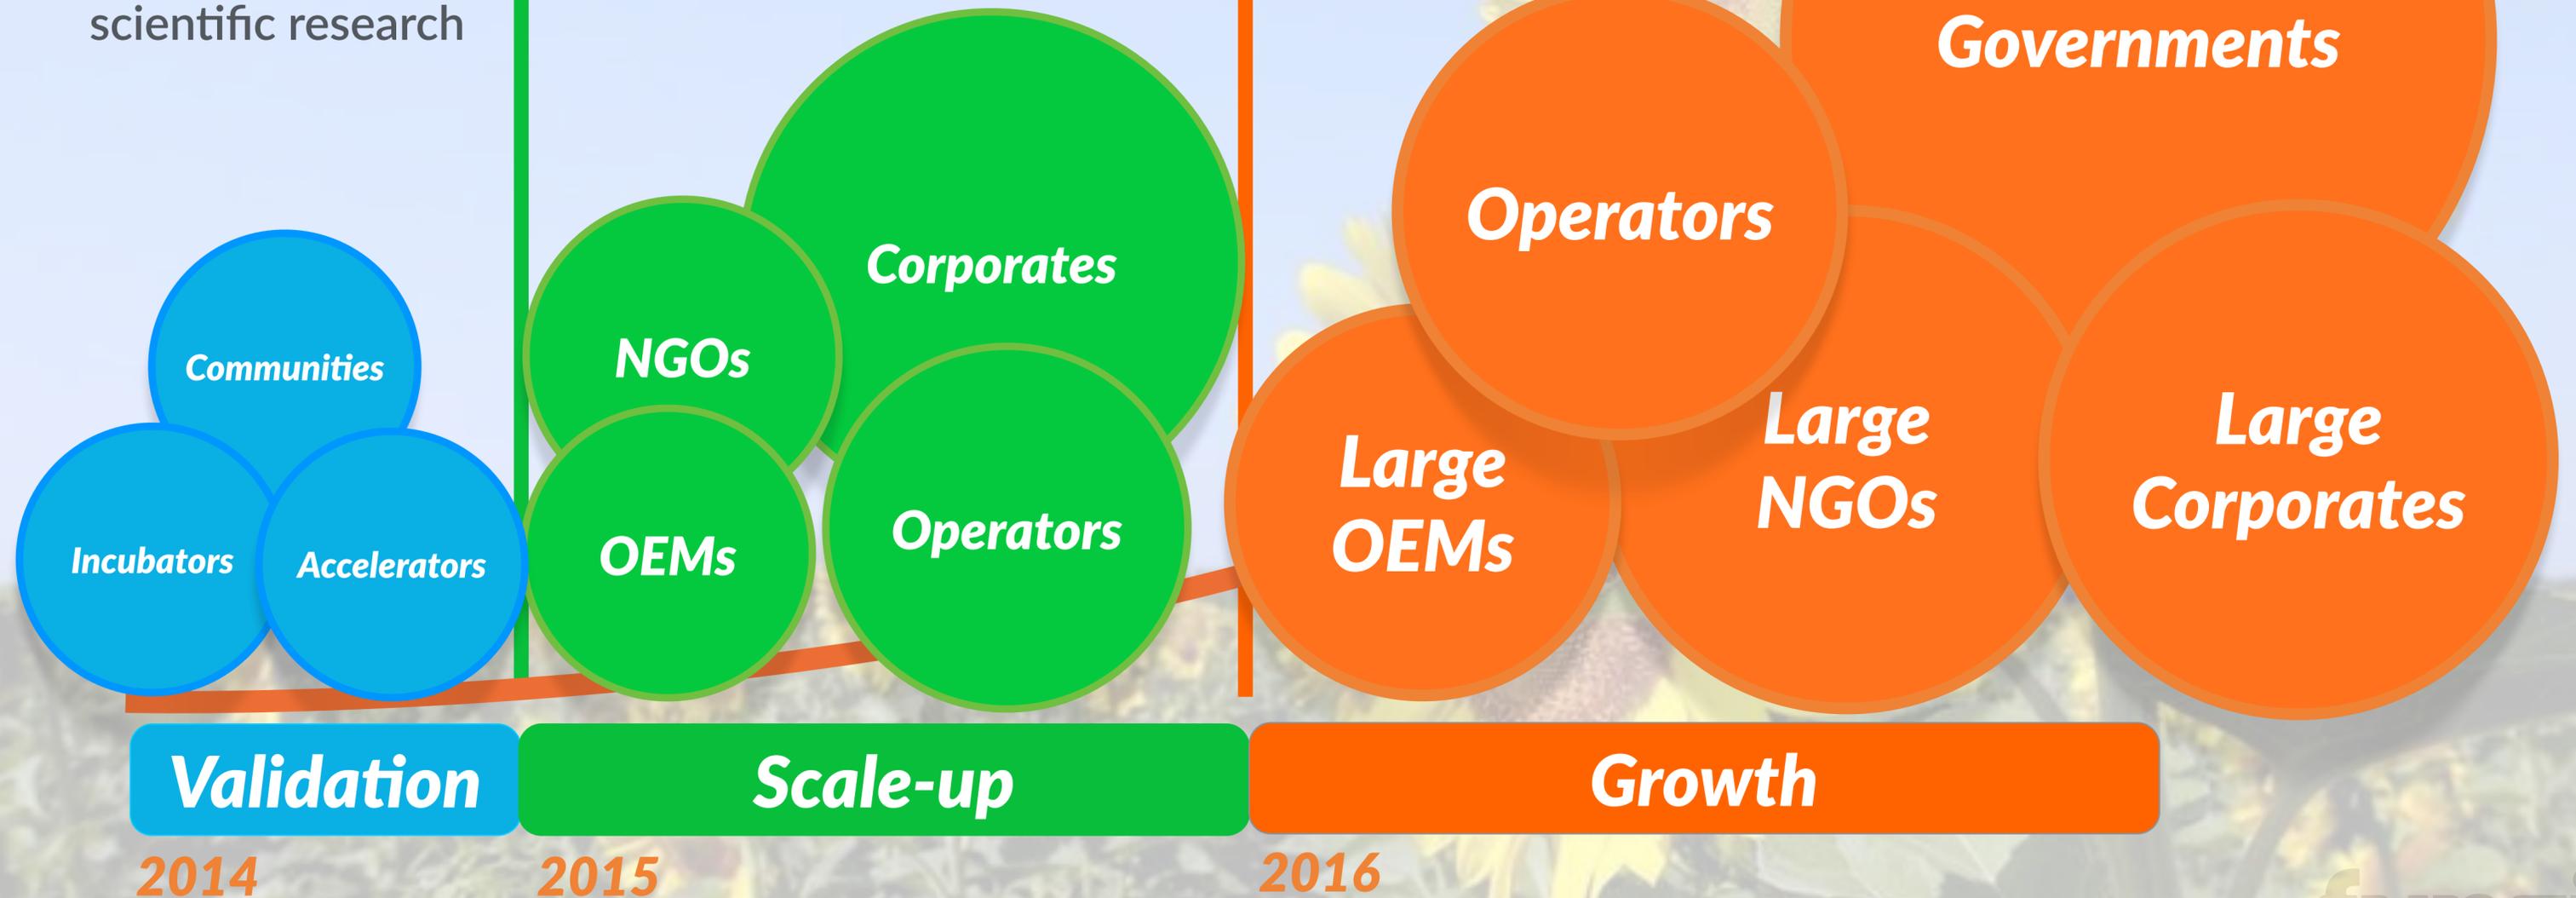

Business logic and model development with practical and scientific research

## Causality

Scalable and repeatable business processes with predictable outcomes

## Scalability

Increased usage without negative impact on profitability

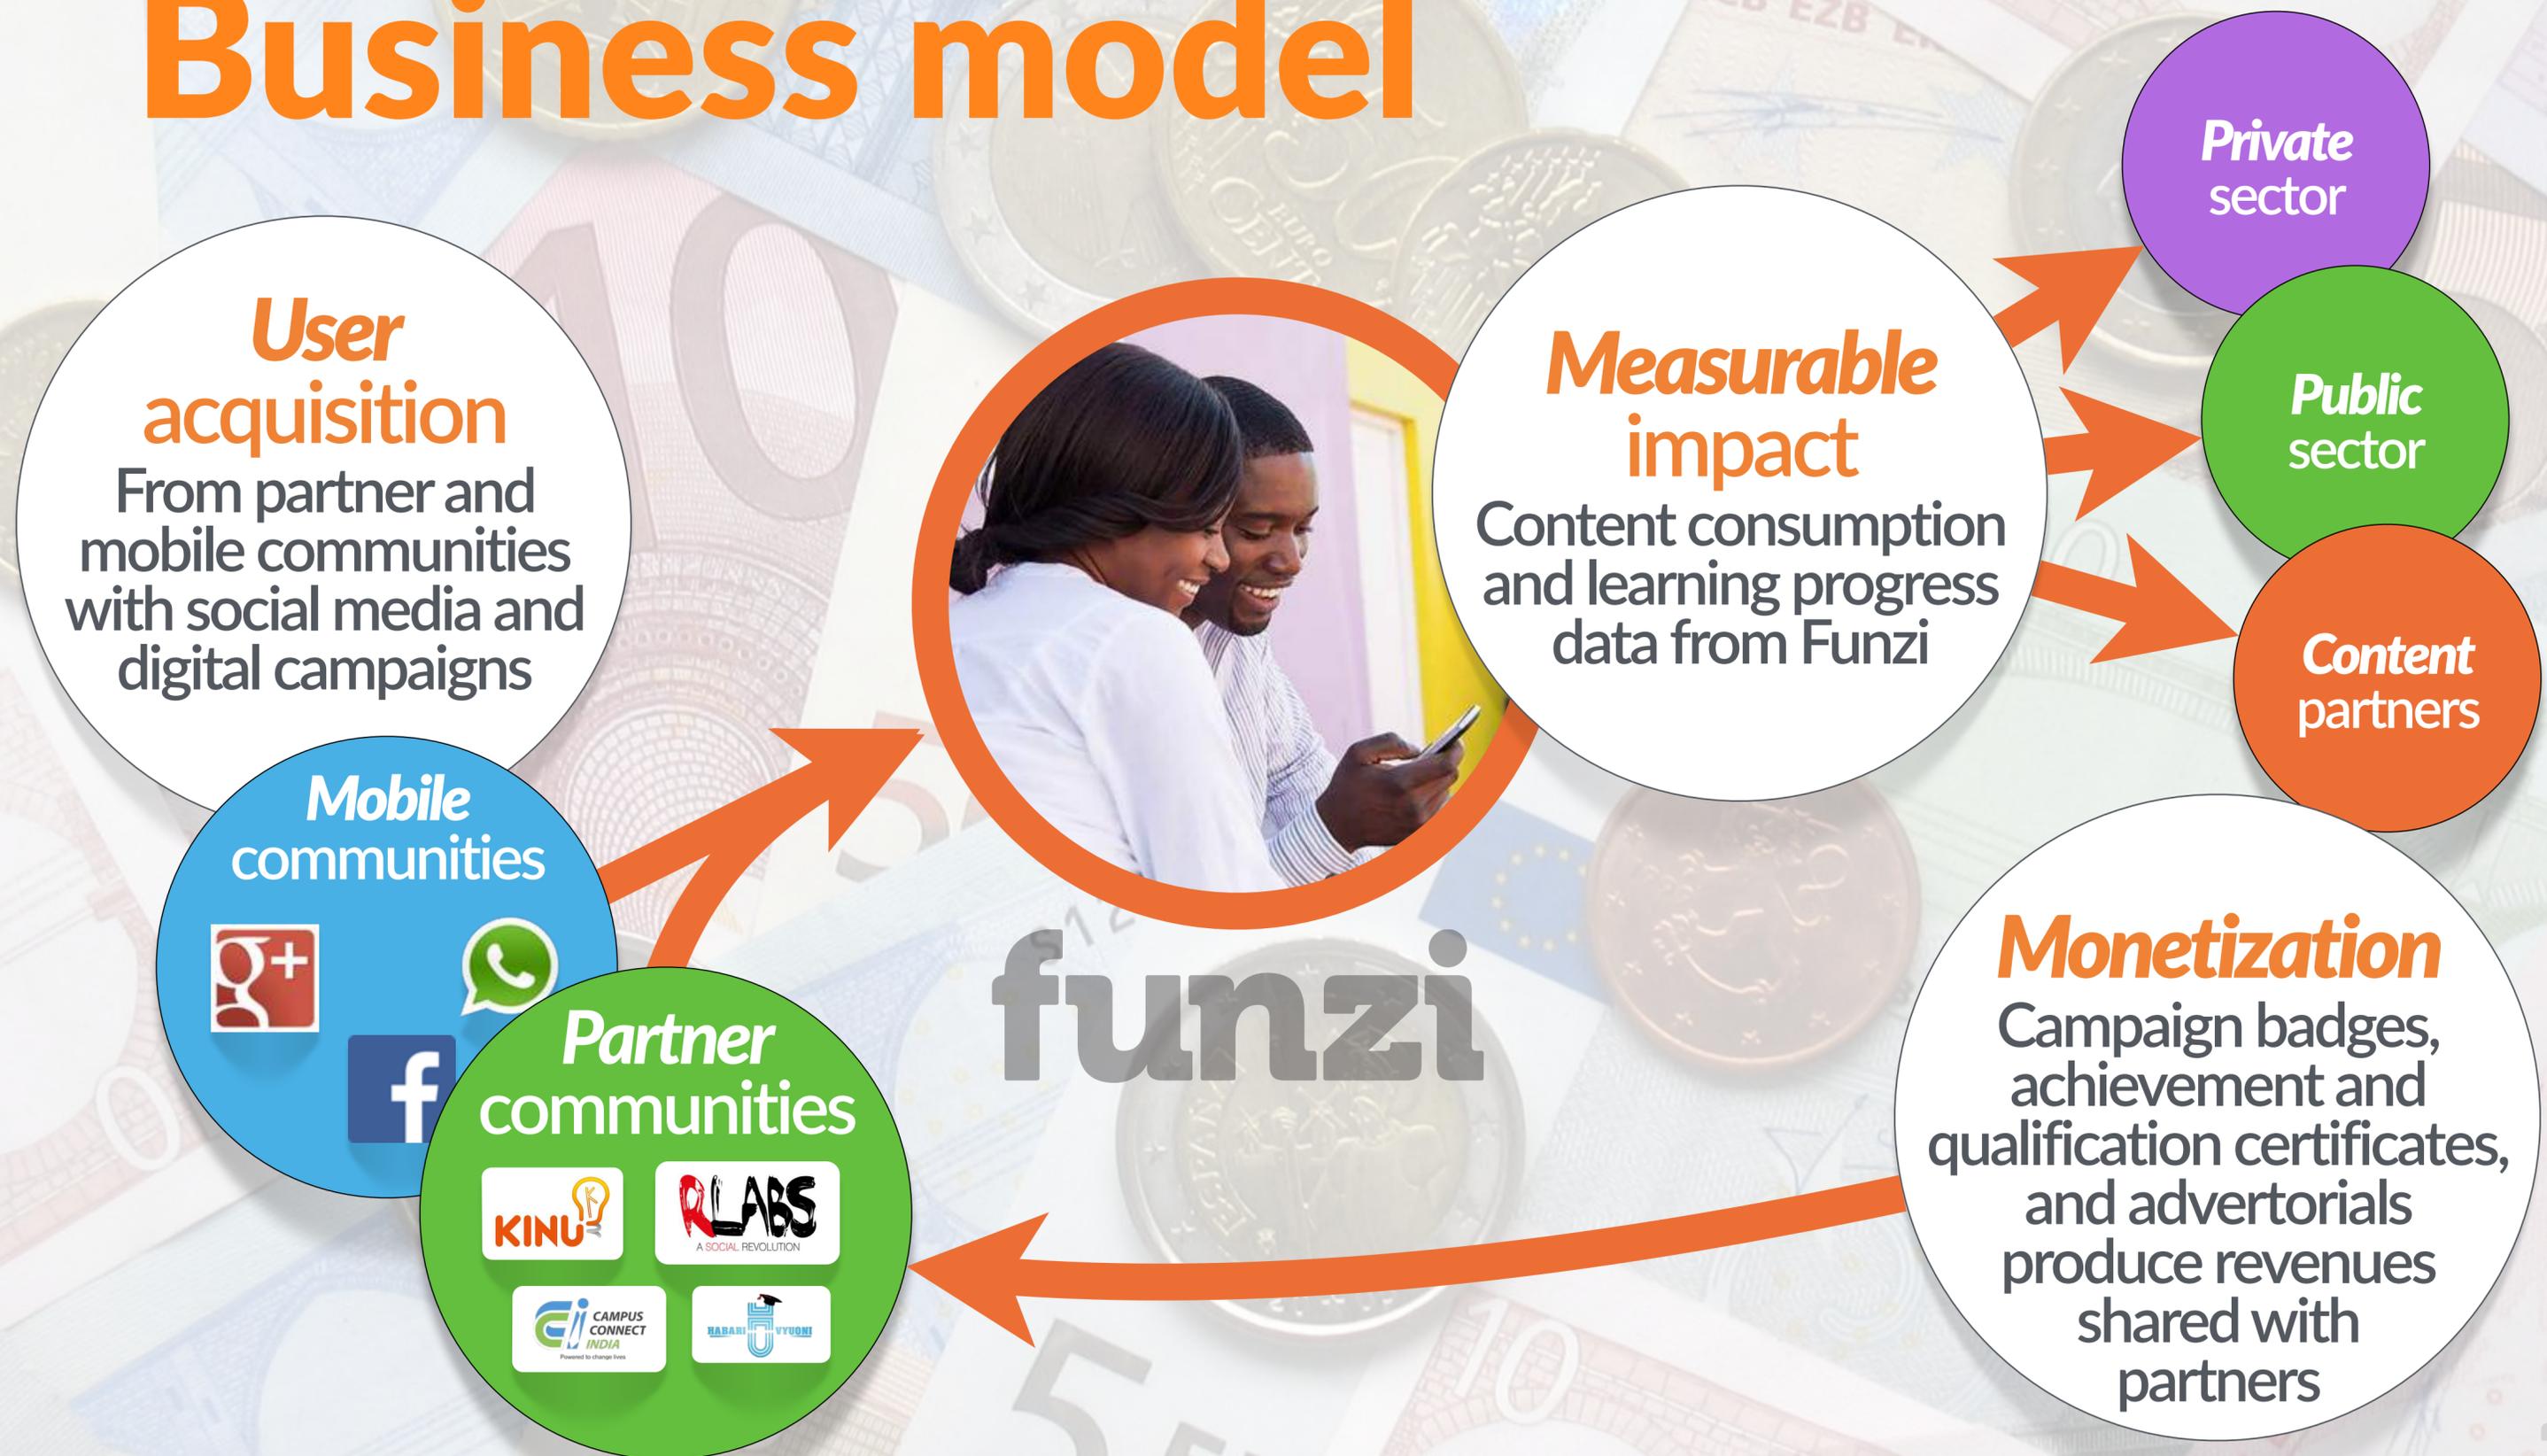

# Partners and prospects

# Business model
